

## **COSTING ENGINEER**

### **BELLVILLE**

Our client is South Africa's largest manufacturer of industrial and utility boilers, which services both local and export markets, and an equal opportunity employer.

A current opportunity exists in the Industrial Watertube Boiler Division, Bellville, for a person who has initiative and drive and is able to develop and maintain an information interface that will interpret the output of the engineering department and transform it into measurable quantities and activities to serve the estimating requirements of the factory and proposals department.

### **Qualifications**

BEng or BSc in Industrial Engineering (Graduates are welcome to apply)

### **Characteristics**

- Costing and commercial support as and when required
- Assisting with the adjudication and generation of bids
- Submission of equipment specification
- Develop and maintain software systems
- Provide proposals department with information required for an offer
- Compile and maintain standard enquiry documents
- Manage process of linking and enter engineering components into Syspro
- Have excellent communication skills, both oral and written in English
- Be proficient in Excel, Word and Visual Basic Programming

### **Experience**

Advantageous is at least two years' experience in a technical environment.

**If you would like to apply please email a copy of your CV and certificate/s to [Romy.Rycroft@e4exec.co.za](mailto:Romy.Rycroft@e4exec.co.za) by Wednesday May 28, 2014.**
